10 January 2014

Is this your first lecture?

Welcome to CSC108H!
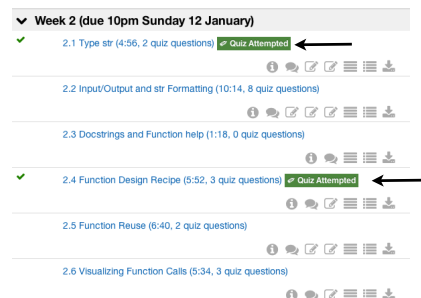

Pick up a course information sheet.

First deadline:

week 2 lecture preparation (watching videos and completing the in-video quiz questions that pop up) is due Sunday 12 January by 10:00pm.

Labs start **next** week. (The "Tutorial" you signed up for on ROSI.)

Warning: "quiz attempted"

On Coursera, "Quiz Attempted" means you attempted at least one quiz question. It does not mean you attempted all of them.

When you finish a quiz question, click the "Continue" button, which will take you either to the next quiz question or back to the video.

Week 2 (due 10pm Sunday 12 January)

2.1 Type str (4:56, 2 quiz questions) ✔ Quiz Attempted

2.2 Input/Output and str Formatting (10:14, 8 quiz questions)

2.3 Docstrings and Function help (1:18, 0 quiz questions)

2.4 Function Design Recipe (5:52, 3 quiz questions) ✔ Quiz Attempted

2.5 Function Reuse (6:40, 2 quiz questions)

2.6 Visualizing Function Calls (5:34, 3 quiz questions)

Worksheets

We are going to use the Built-in Functions worksheet from Wednesday today, so please get it out! If you weren't here on Wednesday, there are some extras on the desk.

Pick-up the Variable and Functions worksheets from the desks at the back or front of the room.
