Assignment 3 - Reminders

Assignment 3 is due on Tuesday, April 1 by 10:00pm

It is worth 8% of your total mark.

Please submit early and often. You can submit multiple times till the deadline, so don't wait until last minute to submit!

Course Evaluations

Very important! They're used by:

Future students in choosing courses

Faculty for improving the course

University for evaluating faculty

You should have received an email asking you to complete them.

Current response rate:

6pm: 11.44%

Please complete them!

Extra Office Hours

Jen is holding extra office hours this Friday, March 28th:

9 - 11 in BA2230 (CSC Help Centre)

Anonymous Feedback

Question: I was wondering if it is possible to put a rubric on the assignment page that tells exactly what we are graded on for A3 that shows what the weight factor for each part for each function that we are graded on similar to the one on Markus [for A2]...

Answer: In the Marking section of the A3 handout we provided a breakdown (the handout gives more explanation):

Correctness (50%), [Your] Testing (30%), Style and Design (20%)

Although we prepare a draft of the marking scheme before the deadline, we finalize the marking scheme after the deadline has passed. This allows us to make adjustments (e.g., sometimes we discard a test that most students/pairs fail and adjust weights of specific rubric items accordingly). Because of that, we aren't able to provide anything more detailed at the moment.

Today's Lecture

Sorting Algorithms (cont' d)

Selection Sort Analysis

Page 3 of *Analysis of Sorting Algorithms* worksheet)

Brief mention to Bubble Sort

But we won't complete that page of the worksheet.

Object-Oriented Programming (OOP)

Class Event and *Class Day* worksheets
